

Good Morning,

Thank you in advance for your consideration as this issue is one of the most important decisions the government can make to support the common citizens like my family and I.

Please consider the fact that one merger after the other has basically killed off variety on the airwaves. FM is filled with repulsive music that is geared towards impropriety and indecency. Truly, when we turn on radio, it's either endless commercials, and massive duplication from one station to the other. It is certainly not the radio we used to love and cherish.

Regarding formats, all of the good music stations we used to love, the former beautiful music stations, nostalgia, country, lite songs...etc....have virtually disappeared into thin air leaving only a radio wasteland filled with the money hungry conglomerates featuring the likes of the repulsive Howard Stern and the up and coming wannabes hired to rake in the money, no matter what damage it causes our ability to truly benefit from the radio medium as a whole.

Truly, we implore you to help us keep the solace we now have, thanks to XM Satellite Radio, the service we gladly pay each month. Yes, NAB may be upset, and yes we used to LOVE AM & FM as it was too, however radio has gotten way out of hand

With all the sacrifices we have endured, all the disappointments we have experienced, and all the sadness we feel, we KNOW that XM Satellite Radio is the answer. XM is quenching our thirst for quality, variety and a sincere range of good programs including our local traffic and weather supports.

PLEASE, PLEASE, PLEASE, REJECT NAB'S PETITION TO DISRUPT THE GREATEST THING TO HAPPEN TO THE CONSUMER LONGING FOR OUTSTANDING CONTENT, COMMITMENT AND SERVICE, XM RADIO !

SINCERELY,

MARY BARBARA & RYAN
